Proxy settings for UoM external users

To access UoM subscribed external educational repositories from your home via **UoM External Web Proxy** please follow these steps.

Step 1

- Goto your Browser's Proxy Settings

Step 2

- For HTTP Proxy address, enter **cache2.uom.lk**
- For port, enter **3128**
- Save your configuration.

Step 3

- Once you are prompted with the authentication dialog, enter your UoM credentials.

Please note that UoM External Web Proxy will not work within the university network.

Important Notice

- ***This service is strictly for educational purposes. You can only access UoM-subscribed external educational repositories.***
- ***Any detection of an illegal activity will cause the user to be permanently banned from the service, and the corresponding UoM account will be disabled without prior notice.***
