

Proxy setting for UoM internal devices step by step guide.

- Click on the start menu > Search for proxy > Click on proxy settings.

- Make sure that "Automatically detect settings" is turned off. Then click on "Set up" button which is under "Use a proxy server" setting.

- **Network & internet > Proxy**

Use a proxy server for Ethernet or Wi-Fi connections. These settings don't apply to VPN connections.

Automatic proxy setup
